Zip Code:

Country:

How to Count Participants, Direct versus Indirect

- **Direct:** Count all people who were participating in or watching the ARISS contact **as it was taking place**. Include all people watching livestreams in other rooms or buildings or homes or outdoors **as the contact was taking place**. (For individuals who watched a recording **after** the contact, count them in the Indirect category.)
- **Indirect:** Count all people, no matter where they were, who watched the **recording or part of the recording after the ARISS contact**.
